Describe Cause of Problem and Remedial Action Taken.*

Water dump cracked due to sand wash out on the 3-phase separator. The well was shut in at the well head to stop the release. Repairs have been made and the separator is back in service.

Describe Area Affected and Cleanup Action Taken.*

Approximately 38bbls produced water and 2bbl oil was released on location in approximately a 35' wide by 50' long area. A vacuum truck was contacted and recovered 14bbls produced water and 1bbl oil from location. Upon approval of the remediation work plan Talon/LPE conducted the remediation in accordance with the approved work plan.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
