RE: OXY USA * Cedar Canyon 28 Fed 4 * **2RP-4363** * DOR: 8/17/17

Cliff,

Your proposal for remediation of the above referenced release is approved. Please advise once remedial activities have been scheduled. Federal sites will require like approval from BLM.

It is OCD's understanding that this remediation coincide with previously approved **2RP-2431** (approved 6/20/18). For this site, there will still remain open, **2RP-2868**, DOR: 3/1/15 listed as a tank overflow in the containment.

Thank you,

Mike Bratcher
NMOCD District 2

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: OXY Cedar Canyon 28 Federal #4 (2RP-4363) - Delineation Workplan

Mike,

Please find the attached Delineation Workplan and remediation proposal for the OXY Cedar Canyon 28 Federal #4 (2RP-4363) that we discussed in your office on August 9, 2018. OXY is looking forward to the OCD's approval.

Shelly – OXY requests that you review this plan and look forward to the BLM's approval as well. Shelly, this leak is at the same location of the old one that you approved on June 20, 2018. I meant to include this one then, but forgot. Similar situation on this as the old one. Mike has agreed to a 2-foot excavation so that we may proceed and close out both leaks. If you have any questions, just let me know and we can discuss. I look forward to your approval.

If you have any questions, please let me know.

Thanks, Cliff
