OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

All,

Please find the attached report and closure request documenting remediation conducted at the PLU 151. The work was conducted to address the historical spill with the RP number of 2RP-3439. XTO is requesting backfill/closure approval from the NMOCD and BLM.

Please let us know if you have any questions, you can contact myself or Kyle Littrell at XTO.

Thank you

Adrian Baker
