OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Pruett,

I am emailing you in regards to the phone conversation on 10/10/18. I added two extra sample locations to the figure as discussed. We will be collecting closure samples for sample locations for R1- R7 and P1-P4. These samples will be sent to a laboratory and tested for all the constrictions in Table 1 NMAC 19.15.29. Showed in Figure 3a
