Subject: [EXT] Release notification - Phantom Banks 20-25-31 battery (API for PLU CVX JV PB 006H: 30-015-40764)

Good afternoon, this is sent as notification of a release at the referenced facility greater than 25 barrels. We've included the API for the PLU CVX JV PB 006H since it is the nearest well flowing into the battery. Coordinates of release are 32.123013, -103.806441. The source of release has been stopped and fluids recovered. Details will be provided with an initial form c-141. Please contact us with any questions.

Thank you,
Jake Foust
