**RE: Form C-141 – Minor Release Notification
Lane Gas Plant
Eddy County, New Mexico**

Dear Sir/Madam,

Summit Midstream Partners, LLC (Summit Midstream), on behalf of Summit Midstream Permian, LLC, is submitting the Release Notification Form C-141 to the Oil Conservation Division of the New Mexico Energy Minerals and Natural Resources Department for the partial blowdown of a natural gas pipeline that occurred on February 5, 2019 at the Lane Gas Plant in Eddy County, New Mexico.

Summit Midstream is submitting Form C-141 as required by the release notification requirements of NMAC 19.15.29.9. Summit Midstream would like to note that the Site Assessment/Characterization and Remediation pages of Form C-141 are not applicable to a gas release, so those pages were not populated or signed.

Summit Midstream believes that no further action is required at this time and requests the closure of this incident. Should you have any questions or require additional information, please contact Steven Moore of Summit Midstream by phone at 614-505-9715 or by email at steven.moore@summitmidstream.com.

Sincerely,

Zak N. Covar
Vice President of HSE&R
