Good Morning,

We are scheduled to perform an at-risk scrape of the illegal dump at the above referenced site on Thursday and Friday (November 15<sup>th</sup> and 16<sup>th</sup>) of this week. Once the area has been scraped, confirmation samples will be collected to confirm proper removal of the impacted soils. The area will be left open pending laboratory data.

Let me know if you have any questions or concerns,

Thank you,

*Clair Gonzales*
