Rebecca,

Please fill out the attached portion of the Form C-141. These pages will need to be sent in with Characterization and/or Remediation proposals. Anytime we receive a Characterization and/or Remediation Plan, we will need pages 3,4, and 5 of the C-141 in with that plan. One of the releases was pre 8/14/18 and should be sent to Brad Billings, but since you sent them in together I will review them both.

Please let me know if you have any questions.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Afternoon,

I submitted these work plans back in December, and have not had a response as to whether they were approved, or approved with conditions. Could you please review these for me and advise me. I believe these locations have sold, but Maverick wants to follow up regarding the remediation status. We will proceed upon your advisement. Have a great weekend!

Best Regards,
