RE: (C-141 Final) Dirty Dozen Federal Com #003H (30-015-38225) 12-16-2018 (2RP-5140)

Ms. Grant;

OCD has received your closure request for Dirty Dozen Federal Com #003H (30-015-38225) 12-16-2018 (**2RP-5140**), thank you. This closure is approved. Federal site will require BLM approval.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher/Ms. Weaver/Mr. Mann,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOC approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

DeAnn Grant
