OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: (C-141 Final) SRO SWD #103 (30-015-24462) 10-23-2018

Mr. Bratcher/Mr. Mann,

Attached is the Final C-141 for the SRO SWD #103 Release which occurred on October 23, 2018 (2RP-5042). This well has been plugged and abandoned and the battery has been dismantled, therefore no inspection can be conducted for liner integrity. Additionally, we are currently excavating the area which was under the battery as per an approved work plan for a release that occurred on November 13, 2017 (2RP-4494). COG is requesting closure for the October 23, 2018 (2RP-5042) release which was inside of a lined containment. If you have any questions please contact myself or Becky Haskell.

Thank You,

DeAnn Grant
