Subject: [EXT] RE: Closure Approvals - XTO - Remuda North 25 State 101H (2RP-5139, 12-9-2018) and (2RP-5181, 12-25-2018)

Good morning,

NMSLO agrees that remediation is completed at this location and that 2RP-5139 can be closed. But 2RP-5181 had some of the release travel off the pad. This area will need further attention in terms of revegetation. This area should be seeded, in the future, at the appropriate time. Let me know if you have any questions.

Thanks

Ryan Mann

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
