RE: Conditional Approval Remediation Plan RE: 2RP-4944 COG Screech Owl DOR 8/18/2018. **2RP-4944**.

Ms. Haskell,  
OCD approves your requested extension to March 29, 2019 for the above referenced release event.  
Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher,

Under the new spill rule a closure report is due for the above release (90 days from work plan approval) on 2/18/19. COG is currently having the excavation backfilled. COG is requesting an extension until March 29, 2019 in order to complete backfilling and to prepare and submit a closure report.

Please let me know if you have any questions or concerns.

Thank You,

Becky Haskell

Hello Ms. Knowlton,

OCD has received the C-141 Remediation Plan for 2RP-4944, thank you! It has been approved with the following conditions:

1. Documentation from Lucid affirming: setbacks required for pipeline and they approve chlorides and other contaminants can remain in proximity of the pipeline.
2. Samples were not received at appropriate temperature therefore cannot be used for TPH/BTEX delineation results. Confirmation samples to include all 4 constituents in Table 1.
3. Restoration/Reclamation/Re-vegetation to also be to 19.15.29.13 NMAC.
4. All areas off pad must have top 4' of "non-waste containing, uncontaminated, earthen material". All 4 constituents to be at ND or background.
5. Remediation to be done to Table 1 standards.

Please let me know if you have any questions.

Best Regards,
