Ms. Baker,

OCD has received your Final C-141 and closure request for Big Eddy Unit #154 Battery (API 30-015-34399) **2RP-5363**, thank you. This closure is approved. Federal sites require like approval from BLM.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
