RE: (Extension Request) Carmen 3 Federal Com #001H Battery 1/7/19 (30-015-39286)

Ms. Haskell,  
OCD approves your requested extension to July 5, 2019 for the above referenced release event.  
Regards,

Victoria Venegas  
EMNRD  
OCD-District II

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher,

Under the new spill rule a work plan or closure report is due for the above release on 4/7/19. COG is currently conducting remediation at risk at this release location and is waiting on an alternative sampling plan response. COG is requesting a three month extension until July 5, 2019 in order to complete remediation activities and prepare a closure report.
