Subject: (C-141 Final) Cottonmouth 23 Federal Com #002H (30-015-43015) 08-15-2018 (2RP-

4924) Ms. Pruett/Ms. Tucker/Mr. Mann,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.
