## MICRO NEPA

Please be aware of the following items prior to any excavation activities.

1. The release point **did not impact any known archaeological area.**
2. The point of release occurred on and off location but is **covered under a previous survey**, no additional surveys will be required.
3. This area is located within a **Medium cave/karst zone.**
4. This site is cleared of flood zones, active playas, but **near an intermittent stream**, etc.
5. Area is noted to be within **0-3% slope.**
6. Soils are within the **Berino complex**
7. **BLM Seed Mix #2 (Sand mix)** will be required.
8. The site is **NOT** located in DSL habitat or LPC habitat. No other T&E species noted (animal or vegetative) within this area.
9. Site is **not** located within Potash
10. Site is **not** located within a Special Area of concern.
11. Site is **not** located within a RMP ACEC.
12. Site is **not** located within Special Status Plant Species area.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
