Matthew,

We have received your closure report and final C-141 for **2RP-4503 Dagger Draw-Foster Battery**, thank you. This closure is approved.

Please let me know if you have any further questions.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: FW: Closure Request July 2018

Please put these in the que for review for closure if we have time to look at them. They are 2RP-4894 and 4503. There are documents in the L Drive folder for both projects. It looks like Maria was OK to close 4503 and had requested the final C- 141 to close out. The other one (4894) may have had an issue with at least one sample point.

Thanks – mb

Subject: [EXT] Closure Request July 2018

Mike,

I had sent these two closure requests to Maria last year, she tentatively approved them and requested the signed C-141 to finalize the process. She left before finalizing and I sent them to Bradford Billings being the release dates were prior to August 2018. Almost a year later I am still waiting for official closure. Being they were in the district office first and Maria was going to approve them, is there anyway your office can finish the process and we get closure?

Thank you,

Matthew Boyle
