**Subject:** [EXT] JP White #4 2RP-5048  
**Attachments:** Delineation-Work Plan.pdf

Good Afternoon,

On behalf of Hadaway Consulting and Eng. LLC, I have attached the Remediation-Work Plan for the JP White #4. Just a note: at Test trench 3 refusal was encountered at 7' bgs., however, bottom and sidewall samples will be taken in order to confirm constituency levels left in place. Please review and advise me of your concurrence, and or conditions of approval.

Best Regards,

*Rebecca Pons*
