Ashley,

We have received your deferral request for (2RP-5314) Poker Lake Unit 52 Battery, thank you. The deferral request is denied.

Before we can approve a deferral the spill needs to be vertically delineated. All of the Floor samples are over the limit in either Chlorides and/or TPH. The OCD request that samples be taken to a depth that contamination amounts are under the limit.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
