Subject: [EXT] RE: [EXTERNAL] Release notification - Ross Ranch 33-25-30 battery (API for PLU CVX JV RR 007H: 30-015-40762)

Jim,

Release was produced water and stayed within impervious lined containment. We are still assessing volume and collecting the requisite information for the C-141 and as always BLM will be included on the submittal. Let me know if you need anything else. Thanks. –Kyle

Bryan,

Need additional information. Est bbls of spill, oil and or water, both, contained on location or did it leave the location. If so what side of the pad and how far into the pasture/ Thanks

Good morning, this is sent as notification of a release of fluids greater than 25 barrels from the referenced facility. We have included the API number for the Poker Lake CVX JV RR 007H because it shares a pad with

the Ross Ranch 33-25-30 battery. The source of the release has been stopped and all standing fluids recovered. Details will be included with a form C-141. Please contact us with any questions or concerns.

Thank you,

Jake Foust
