OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Release notification - Ross Ranch 33-25-30 battery (API for PLU CVX JV RR 007H: 30-015-40762)

Good morning, this is sent as notification of a release of fluids greater than 25 barrels from the referenced facility. We have included the API number for the Poker Lake CVX JV RR 007H because it shares a pad with the Ross Ranch 33-25-30 battery. The source of the release has been stopped and all standing fluids recovered. Details will be included with a form C-141. Please contact us with any questions or concerns.

Thank you,
