Subject: Release notification - Ross Ranch 33-25-30 battery (API for PLU CVX JV RR 007H: 30-015-40762)

Good morning, this is sent as notification of a release of fluids greater than 25 barrels from the referenced facility. We have included the API number for the Poker Lake CVX JV RR 007H because it shares a pad with the Ross Ranch 33-25-30 battery. The source of the release has been stopped and all standing fluids recovered. Details will be included with a form C-141. Please contact us with any questions or concerns.

Thank you,

Jake Foust
