Subject: Oxy - Sand Dunes C-147 Start-up Notification/Identifier Number Request

Brad/Mike,

Oxy plans to begin moving treated water to the Sand Dunes Recycling Containments this Friday. The Sand Dunes Recycling Facility and Containments were approved on July 6th, 2017. A modification to the dimensions of the ponds was submitted on February 5th, 2018. Oxy is still awaiting identifier numbers for the containments and the posted C-147 on the NMOCD Imaging website. If additional information is needed, please let me know.

Thanks,

Dylan Allen
