**Attachments:** MPC-Leatherneck Recycling Facility and Containment- C147 Long and Siting Criteria.pdf; MPC-Leatherneck Recycling Facility and Containment- Stamped Engineered Drawings.pdf

Dear Mr. Bratcher and Mr. Billings,

Matador Production Company ("MPC") is pleased to submit a registration package for the proposed Leatherneck Recycling Facility and Containment in Eddy County, NM. With assistance from Souder, Miller & Associates, MPC has sought to provide the appropriate data verifying that this site passes NMOCD Standards under Rule 34. Specifically, it was verified by Souder, Miller and Associates that depth to groundwater was 63 feet in a bore-hole drilled at the project site. Please find attached:

- Completed C-147 Form and Required Siting Criteria
- Equipment and Liner Material Manufacturer Specifications
- Stamped Engineered Design for the Proposed Facility and Containment, developed in accordance with a geotechnical survey of the area.
- Variance Request for an Audible Bird Deterrent System in place of bird netting over the recycling containments.

Thank you, and please contact myself or Casey Snow if there are any questions or concerns regarding the registration. A hard copy has also been mailed to the District 2 office for your convenience.

Sincerely,

**CLIFF HUMPHREYS**
