OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Morning,

Please disregard this inspection notification as it was sent in error. A final C-141 with photographs was submitted in regard to this 2RP event on 12/15/2017 for which XTO did receive an approval from the BLM on 3/15/18. If you are able to review and approve the final C-141, it would be much appreciated. Please let us know if there is anything we can provide that will assist you. As always, thanks so much for your help.

Respectfully,

Amy C. Ruth
