### RE: (Extension Request) Magura 8 Federal #004H (30-015-39472) 01-07-2019 2RP-5202

Mr. Hitchcock

OCD approves your closure request for Magura 8 Federal #004H (30-015-39472) 01-07-2019 **2RP-5202**.

Thank you,

Victoria Venegas

OCD-District II

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher/Ms. Tucker,

Please find the attached C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume. The liquid lost estimate is based on the spill dimensions, estimated depth of fluid (wet soil depth) and type of formation. The spreadsheet will calculate the volume lost in the ground and does not include the recovered amount in the calculation. The calculated volume in the ground and the volume recovered were added together and reported on the C-141. If you have any questions or concerns please do not hesitate to contact me.
