OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Robert, attached is a closure report as requested for this incident that had previously been verbally agreed to defer until the closure of the facility. We respectfully ask for closure on behalf of Lime Rock Resources in regards to this incident.

Thank You,

Chris Jones
