Subject: Re: [EXTERNAL] COG Copperhead 31 Fed Com #001H (2RP-4763) - Delineation Workplan
Date: Monday, August 13, 2018 12:35:34 PM

Good Afternoon Cliff,

If NMOCD is good with a liner at 4 ft, then BLM does not have an issue. Work plan approved as written. Thanks.

Henryetta Price

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Mike and Henryetta,

Please find the attached Delineation Workplan and remediation proposal for the COG Copperhead 31 Fed Com #001H (2RP-4763). COG is requesting that you review this plan and is looking forward to the OCD's and BLM's approval.

Mike, this is the plan that we discussed in your office on August 9, 2018 and you agreed to.

Henryetta, this is the site that you requested additional sampling outside of the leak area in the potentially stressed vegetation. The samples for this area are SP11 – SP14. As you can see the results are clean and there is no impact.

If you have any questions, please let me know.

Thanks, Cliff
