Process as a facility using the OGRID on the C-141. In the approval email, indicate it was opened as a facility since the OGRID for the API number listed did not match what was provided on the C-141

Thanks - mb

Do you all want me to treat this as a facility? This API# the Operator listed on the C-141 shown below, has a different OGRID# than on the notification. Whether a facility or API#, I think that OGRID# they gave us on the notification should be revised to what is shown below.

30-015-29847 POKER LAKE #139 [325580]

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
