**Subject:** [EXT] Re: [EXTERNAL] C-141\_Spud 16 State #008H

Hello all,

This is showing on my end to be on Private surface with no BLM oil and gas mineral ownership. Therefore, I would not need to be involved further unless this spill is determined to have migrated into an area of BLM administration.

Thank you,

**Crystal Weaver**

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good Afternoon,

Please see the attached initial C-141 of the spill that occurred at the Spud 16 State #008H on 3/13/2019.

Thank you,
