RE: [EXT] 2RP-5122 Devon Snapping2 State #3H

Hello Ms. Pons,

I have a couple of questions about RE: [EXT] **2RP-5122** Devon Snapping2 State #3H:

- Figure 1 (Vicinity Map) shows samples points AH-3@1ft and AH-1@1ft at a different location than sample points AH-3@3ft and AH-1@4ft in Figure 2 (Site Plan). Were all samples taken at the same pad?
- Were samples AH3, AH5, AH6, and AH7 taken @3ft? Where are the lab results?
- According to the OCD environmental map, the closest water well to the release site is:

https://nwis.waterdata.usgs.gov/nwis/gwlevels?site_no=320330103462401&agency_cd=USGS&format=html

Please, fill out the attached part of the Form C-141. These pages will need to be sent in with Characterization and/or Remediation proposals. Anytime we receive a Characterization and/or Remediation Plan, we will need pages 3,4, and 5 of the C-141 in with that plan.

Best Regards,

Victoria Venegas
EMNRD
OCD-District II
811 S First St. Artesia
NM 88210
Victoria.Venegas@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Morning,

I have respectfully attached the work-remediation plan for the Devon Snapping 2 State #3H that was assigned Remediation Permit #2RP-5122, for your review. Please advise me of your concurrence or approval with conditions. Thank you

Best Regards,

Rebecca Pons
