Subject: [EXT] East Pecos 22-14H Liner inspection

Mr. Bratcher

Please find attached C-141 and proof of fee application payment for a release that occurred on July 24th, 2019 on the East Pecos 22-14 well pad. Approx 10 bbls of produced water was released into a lined steel containment, all 10bbls was recovered. This incident has not yet been assigned an RP#.

This email serves as notification that this containment and liner will be inspected on August 5th, 2019 to document integrity of the liner and close this incident. Please let me know if NMOCD would like to be present for inspection.
