Subject: [EXT] Request for Extension RDU #57 (2RP-5450)

Good Morning,

This email serves as a request for a 45-day extension for submittal of the final closure report for Ross Draw Unit #57 (2RP-5450). The spill has been remediated, confirmation samples collected, and results reported applicable NMOCD closure standards. The site has been backfilled and off-pad impacted area has been reseeded. Details and final laboratory reports will be included in the final closure report. Final report submission is anticipated by the end of this week.

Please let me know if you need any additional information.

Thank you for your patience.

Debbie
