Subject: [EXT] Re: [EXTERNAL] (C-141 Initial) RJ Unit #108 (30-015-31127) 04-17-2019

Hello all,

Upon reading the initial C-141 BLM would like to state that, a full delineation of this release with laboratory sampling results will be required, and a plan of action is also required to be submitted for the BLM's review.

Thank you,

Crystal Weaver

"3 percent of the water on this planet is considered freshwater. Of that 3 percent only 1 percent is considered accessible, meaning the majority of the remaining 2 percent is trapped in glaciers or snowfields." - National Geographic

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
