Subject: Extension Request - XTO - Remuda 25 Observation Well #001 (RP# 2RP-5309)

RE: 2RP-5309

Adrian,

Your request for an extension to September 29th, 2019 is approved.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] Extension Request - Remuda 25 Observation Well #001 (RP# 2RP-5309)
Importance: High

Mike,

XTO is requesting an extension to the 90-day timeline for completed remediation and closure report submittal required in 19.15.29.12.B.(1) NMAC at the Remuda 25 Observation Well #001 (RP# 2RP-5309). The release was discovered on February 28, 2019. Drilling activities at the site has prevented XTO from finalizing site characterization sampling and initiating remediation activities on the pad. A Right of Entry Permit was submitted to the State Land Office on April 5, 2019. Approval and an arch survey of the site are still pending. The site deadline is May 29, 2019. XTO requests an extension of this deadline until September 29, 2019.

Thank you,

Adrian Baker
