Subject: [EXT] 1RP-5410 - 2C-3-4 - Revised Remediation Summary and Site Closure Request
Attachments: 1RP-5410 - 2C-3-4 - Remediation Summary and Site Closure Request_Revised.pdf

Mr. Hamlet,

Please talking to you this morning. Attached is a Revised Remediation Summary and Site Closure Request that has been prepared for ETCs 2C-3-4 Remediation Site. The earlier submission through the NMOCD Portal included an update remediation summary and chemistry table but the samples collected on 9/18 were not reflected on the map; this version has been collected. I had forwarded you the Remediation Summary that I submitted to the client so that you might compare to the most recent upload. Please disregard that email as we have established you had the most recent draft and I mistakenly attached the wrong map. Thanks Robert.

Respectfully,

Joel Lowry
