Subject: Deferral Approval - Apache - A State 40 Battery - (2RP-5045) 11-7-2018
Attachments: Deferral Approval - Apache - A State 40 Battery - (2RP-5045) 11.25.19.pdf

Larry,

Apache's deferral request for the 2RP-5045, requests that reclamation to restore vegetation be deferred until the poly lines are removed from service. The areas requested for deferral are identified on the site map as soil samples SP1, SP2, SP3, and W Edge. The areas have been delineated and documented in the report. At this time, OCD approves this request. The Final Report C-141 will be accepted for record and marked accordingly. The release will remain open in OCD database files and reflect an open environmental issue. This is a State site and will require like approval from SLO.

Regards,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
