Subject: [EXT] Re: [EXTERNAL] (Resubmittal #1) Windward East CTB (1RP-5708) 08-29-2019

The Closure Report for 1RP-5708 has been approved from the BLM as of 11/25/2019.

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
