RE: (Resubmittal #2) Magnum Pronto 32 State SWD #001 (30-025-41354) 08-02-2019

Ms. Esparza,
On 10/28/2019, 9:24:16 a.m. (see image below) Ramona.Marcus@state.nm.us from OCD sent an email to COG with the RP # for Magnum Pronto 32 State SWD # 001 (30-025-41354) 08-02-2019. Please, before resubmitting any documentation, be sure to check the email of the person who uploaded the initial C-141 on the payment portal. The system is configured in such a way that only the person who initially uploaded the document receives the notification email. We greatly appreciate your cooperation.
Regards,

WYDBM-190816-C-1410

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

To Whom It May Concern,

Please find the attached Closure Request for the COG Magnum Pronto 32 State SWD #001 (30-025-41354) release which occurred on 8/2/2019. The Closure Request was originally submitted to the NMOCD District 1 Office / NMOCD webpage on August 16, 2019 and resubmitted on October 15, 2019. COG is requesting that you review this Closure Request.

Thank you,

Brittany N. Esparza

Subject: (C-141 Initial-Final) Magnum Pronto 32 State SWD #001 (30-025-41354) 08-02-2019

Mr. Mann,

Please find the attached Initial/Final C-141 for your consideration. Also, attached is the calculation sheet to determine the estimated release volume for Falcon Lined facilities. The liquid lost estimate is based on the spill dimensions and estimated depth of fluid in the liner. The spreadsheet will calculate the volume lost into the liner. No gravel was present in this lined facility as it is a Falcon Liner. The unrecovered volume is a residue left behind on the liner and equipment which will be cleaned by pressure wash. A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please also see the attached picture taken during the final inspection conducted by a COG HSE representative. If you have any questions or concerns please do not hesitate to contact me.

Thank you,

DeAnn Grant
