Subject: RE: Release notification
Date: Monday, October 29, 2018 8:48:08 AM

We got the same notification. It is about 5 miles east of the Eddy/Lea county line and about 6.5 miles due south of hwy 176.

Subject: Release notification

I picked up voicemail this morning from Alena Miro w/ Enterprise (713-865-6825). She was providing verbal notification of a major release associated with a pipeline rupture caused by a 3rd party line strike. She did not give a location. Both gas and liquids released. The release occurred at approximately 4:30 PM. She left the message at 7:11 PM. The release had not been contained and the line leak had not been shut off due to explosivity issues in the area. Her estimate of the liquid volume was >300 bbls and it had reached a draw causing a sheen on the water. They have an emergency response crew heading in.
