Cliff,

The BLM is in agreement with OCD's approval. Provide notification 24 hours prior to backfill to allow BLM to inspect the excavation. The off road impacted areas are to be seeded with BLM #2 seed mix prior to closure of the site. If any questions please get back to me. Thanks

-  All off road areas must contain a minimum of 4 feet of non-waste containing uncontaminated, earthen material with chloride concentrations less than 600 mg/kg.
-  Restoration, reclamation and re-vegetation to 19.15.29.13.NMAC.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
