**Subject:** [EXT] Release notification - Corral Canyon CTB (API for corral canyon federal 016h: 30-015-42928)

Good afternoon, this is sent as notification of a release of fluids associated with the referenced facility greater than 25 barrels. We've included the API for the corral canyon fed 16h as it's the closest well flowing into the battery. The source of release has been stopped and all fluids recovered. Details will be included with initial form C-141. Please contact us with any questions.

Thanks,  
Jake Foust
