Mr. Humphreys:  
The Oil Conservation Division has reviewed Matador Production Company's Application and Form C-147 for the proposed modification of 2RF-142 Leatherneck Recycling Facility. The application is denied because it does not meet the requirements of 19.15.34 NMAC, as detailed in the attached letter of denial.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
