**NCE2002755660 HAMON FED COM A 3H @ 30-025-41305**

Mr. Lowry,

The OCD has denied the submitted Remediation Plan for incident **NCE2002755660 HAMON FED COM A 3H @ 30-025-41305** for the following reasons:

- Vertical delineation is incomplete. TPH concentration at sample points SP1, SP4 and SP5 is above the required limit. More delineations efforts are needed for this site.
- Update your report with the information provided in a previous email. Include a Table with the corrected lab results.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal.

Thank you,

Victoria Venegas

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
