Subject: [EXT] Re: Marathon Oil Company - Final C141 & Remediation Closure Report - Taylor Deep 12 Federal #6

The Closure Report for Taylor Deep 12 Federal #6 (11/21/2019) has been approved by BLM as of 03/06/2020.

Site needs like approval from NMOCD.

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
