

PRODUCT SPECIFICATIONS

PRODUCT IDENTIFICATION

Product Name: Remedy (Emergency Spill Solution)
Product Code: 22005

GENERAL DESCRIPTION

Remedy Emergency Spill Solution is a natural and completely safe non-toxic formula of selected microbes that digest organic contaminants on the ground surface and in soils. These communities of microbes have the ability to effectively convert harmful hydrocarbons, oils and greases into non-toxic compounds. When applied to a hydrocarbon spill, microbes and enzymes are introduced that accelerate natural microbial activity that drastically cut clean-up timeframes. In addition, Remedy will suppress harmful organic vapors creating a safe working environment for spill responders.

DIRECTIONS

FOR SMALL SPILLS ON FLOOR, CONCRETE OR GRAVEL SURFACE:

- 1) Dilute ½ gallon of Remedy with 1 ½ gallons of water in a 2 gallon sprayer. Spray 6-8 inches from surface to be cleaned. Remedy is not corrosive.
- 2) Allow foam to penetrate spill.

FOR SPILLS ON SOIL:

- 1) Dilute with water to a 5% mixture (one gallon of Remedy with 100 gallons of water) before applying. Apply the diluted solution with a spray or pour delivery system and mix well into the spill or contaminated soil.
 - 2) Generally, one gallon diluted will treat approximately 10 cubic yards of soil.
-

TYPICAL PROPERTIES

Color	- Light Brown
pH, 1% Solution	- 7
Specific Gravity	- 1.02
Odor	- Distinctive
