Mr. Bratcher/Mr. Mann,

The Work Plan was approved by the SLO on July 22, 2019. However, COG is still requesting a 3 month extension until October 29, 2019 to prepare the Closure Report.

I apologize greatly for this mistake. Please let me know if you have any questions or concerns.

Thank you,

**DeAnn Grant**

Mr. Bratcher,

Under the new spill rule a closure report is due for the above releases on 7/29/2019. COG submitted a work plan which was approved by the NMOCD on April 30, 2019, however COG is still awaiting approval from the SLO. We can't start remediation activities without SLO approval. COG is requesting a three month extension until October 29, 2019 in order to hopefully obtain SLO approval and conduct remediation activities and prepare a closure report. If we do not obtain SLO approval we may have to request an additional extension. Please let me know if you have any questions.

Thank you,

**DeAnn Grant**

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
