### **NRM1935240293 FRIZZLE FRY 15 WXY FEDERAL COM #007H @ 30-025-45892**

Ms. Sanjari,

The OCD has denied the submitted Closure Report C-141 for incident # NRM1935240293 FRIZZLE FRY 15 WXY FEDERAL COM #007H @ 30-025-45892 for the following reasons:

- Horizontal delineation has not been completed. By Rule [19.15.29.11](#) SITE ASESMENT/CHARACTERIZATION: "...the responsible party must assess soils both vertically and horizontally for potential environmental impacts from any major or minor release containing fluids." The edges -horizontal definition- of a liquid release must be determined. The values for determination of horizontal impact are derived by either "background" value or 600 mg/Kg for chlorides. More delineation/remediation efforts are needed for this site.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
