NRM2008661323 NC STATE SWD WELL #1 @ 30-025-28695

Ms. Fawks,

The OCD has approved the Site Characterization and Remediation Plan for incident # NRM2008661323 NC STATE SWD WELL #1 @ 30-025-28695 with the following conditions of approval:

- The floor and sidewalls of the excavated area will be advanced until laboratory analytical results indicate impacted soil affected above the NMOCD Closure Criteria has been removed. Be advised, that the values for the determination of the horizontal impact -the edges of a liquid release- are derived by either "background" value or 600 mg/Kg for chlorides. Wall samples should be below 600 mg/Kg, or background, for chlorides.
- The proposed alternative sampling plan for this site is approved.

The signed C-141 can be found in the online image data base under the incident #

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
