**Subject:** RE: WPX Energy - Longview Federal 12 #015H (2RP-5647 and 2RP-5630) request for extension  
**Attachments:** (C-141 Final) NAB1927331299 LONGVIEW FEDERAL 12 #015H @ 30-015-41092 2RP-5633.pdf

### NAB1927331299 LONGVIEW FEDERAL 12 #015H @ 30-015-41092 2RP-5633

To whom it may concern,  
I mistakenly closed 2RP-5647 instead of 2RP-5633, which is an initial/final. It has been corrected. My apologies.  
The OCD has approved the Final C-141 for incident NAB1927331299 LONGVIEW FEDERAL 12 #015H @ 30-015-41092 2RP-5633. No further action is required at this time and the signed C-141 can be found in the online image data base under the incident #.  
Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Chris,

It looks like 2RP-5647 was closed on 2/28/2020. It might have been mistaken for an initial/final. Please move forward with the remediation/closure on 2RP-5630 and 2RP-5647. The extension will be placed in both well files.

Regards,

**Subject:** [EXT] RE: WPX Energy - Longview Federal 12 #015H (2RP-5647 and 2RP-5630) request for extension

All,

WPX is requesting an extension of the current deadline of March 8, 2020 for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Longview Federal 12 #015H (2RP-5647 and 2RP-5630). The releases were discovered September 4 and September 9, 2019. WPX is addressing both releases simultaneously as they occurred in the same area. Initial site assessment was conducted from September 9, 2019 to September 12, 2019. Vertical and horizontal delineation of identified impacts have now been completed and WPX would like to request additional time to mobilize and complete remediation activities. WPX requests an extension of the current deadline until June 6, 2020 for both releases.

Regards,

Chris McKisson

**Subject:** [EXT] WPX Energy - Longview Federal 12 #015H (2RP-5647 and 2RP-5630) request for extension

All,

WPX is requesting an extension of the current deadlines of December 3 and December 8, 2019 for completing a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Longview Federal 12 #015H (2RP-5647 and 2RP-5630). The releases were discovered September 4 and September 9, 2019. WPX is addressing both releases simultaneously as they occurred in the same area. Initial site assessment was conducted from September 9, 2019 to September 12, 2019. Delineation activities were conducted using hand auger and potholing; however, additional time is being requested to schedule and mobilize a drill rig to the location in an effort to vertically and horizontally delineate identified impacts. WPX requests an extension of the current deadline until March 8, 2020 for both releases.
